FOR IMMEDIATE RELEASE

Commitment to Sustainability in Concorde Hotel Singapore

April 2024 – Concorde Hotel Singapore is proud to announce its continued dedication to sustainability. Over the years, the hotel has embarked on a journey to reduce its ecological footprint and promote environmentally responsible practices. As part of the Concorde Hotel Singapore Green Promises initiative, the hotel has implemented a range of sustainability measures aimed at minimising its impact on the environment. These initiatives encompass sustainable energy and water management, waste reduction, carbon emissions reduction, and an

increased reliance on renewable energy sources. One significant change involves adjustments to the hotel's daily room cleaning practices. To conserve energy, water, and chemicals without compromising guest comfort, the hotel now services guest rooms every two days. This effort not only contributes to resource conservation but also enhances the overall sustainability of the hotel.

Furthermore, Concorde Hotel Singapore has taken steps to reduce its greenhouse gas emissions within guest rooms. These include the use of energy-efficient lighting and appliances, the utilisation of sustainable materials in collaterals, installation of water-efficient fixtures, and temperature settings of up to 25°C. These measures demonstrate the hotel's commitment to sustainability without compromising guest experience.

In line with its sustainability goals, the hotel has made the following implementations:

1. **In-room Vouch Digital Concierge:** a digital platform that helps to streamline task management across operations teams, providing a convenient guest request platform, allowing the hotel to run smarter and smoother operations.
2. **Water Filtration:** Single-use plastic bottles have been eliminated from guest rooms, replaced by water filter taps, reducing single use plastic waste.
3. **Rubi the Robot:** Rubi, the hotel's cleaning robot, built with sustainable material and energy-saving technology, contributing to a more eco-friendly environment.
4. **3R Bins:** Throughout the hotel, 3R (Reduce, Reuse, Recycle) bins are conveniently placed, encouraging guests and staff to actively participate in waste reduction.
5. **Sustainable Straws:** Concorde Hotel Singapore has replaced plastic straws with sustainable alternatives made from broken rice and tapioca.
6. **Sustainable Sourcing:** The hotel sources seafood from sustainable farms, contributing to responsible consumption. The hotel also prioritises sourcing locally wherever possible.
7. **Spices Garden:** The introduction of a spices garden within the hotel; exemplifies the farm-to-table approach, offering guests fresh and sustainable ingredients.

Concorde Hotel Singapore's sustainability efforts has been recognised and we have received the prestigious **Green Hotel Award** in 2017-2018, **ASEAN Green Hotel Award** in 2022 - 2024 and more recently, the **Singapore Hotel Sustainability Award 2023 - 2024** on October 5th, 2023. These accolades reflect the hotel's commitment to making a positive impact on the environment and the community. Concorde Hotel Singapore remains dedicated to advancing its

sustainability initiatives, continually seeking innovative ways to reduce its environmental footprint while providing exceptional hospitality experiences for its guests.

Saving the Environment. Always at Concorde.
